

CprE/SE 491 May1620 Weekly Report 7

Web platform for software specification of Java libraries

Reporting period: October 13 – October 20

Advisor / Client: Professor Rajan (ComS)

Members: Cody Hanika (Team Leader),
Deeksha Juneja, (Communication Leader),
Alex Dana (Web Master/Concept Holder)

Weekly Summary:

- This week was spent getting a prototype of the system up and running for our advisor.
(All)
 - Acquired the database from ISU (Alex)
 - Create an in-memory running version of the post component of our system (Cody)
 - Create a skeleton for the in-memory running version of the analyze version of the system (Alex)
 - Start with JUnit Testing to analyze the answers received from the posts. (Deeksha)
 - We were not able to meet with Professor Rajan this week (will reschedule)

Goals for Next Week:

- Finish the in-memory prototype for the system
- If we acquire a database from ISU, start creating some tables
- Start writing code to connect to our database
