CprE/SE 491 May1620 Weekly Report 5

Web platform for software specification of Java libraries
Reporting period: September 28 – October 5
Advisor / Client: Professor Rajan (ComS)
Members: Cody Hanika (Team Leader),
          Deeksha Juneja, (Communication Leader),
          Alex Dana (Web Master/Concept Holder)

Weekly Summary:
- Attempted to set up new meeting time (All)
- Created our first draft of the project plan
- Looked into posting questions to the Stack Overflow site using an http request. (Alex & Cody)
- Professor Rajan setup separate meetings for our now two seperate teams (May1620 and May1639) (All)
- Professor Rajan and Hoan discussed the current storage method of methods and their pre-conditions. They are currently in a text file. It is up to us to decide how we will use this for our prototype (possibly develop a schema and insert them into a database). (All)
- Professor Rajan would like us to work on a prototype for our project to give us a better understanding of it as well as to use the experience to gather more requirements of the system/process. (All)
- Next week we will be communicating via email for our next meeting and in two weeks we will meet again. (All)

Goals for Next Week:
- Work on a prototype for our current project process. This will be a bare bones prototype used to gain more knowledge on the system as well as gather more requirements that may come up. (All)
- Figure out a better time in which our group can meet with Professor Rajan (All)
- Brainstorm possible meeting times for group members only (All)
